**HOLLOW STEEL RAISED ACCESS FLOORING SYSTEM**

Pro Access Hollow Steel Raised Floor Systems are manufactured to a high quality specification using rigidly applied production procedures and are tested to CISCA standards with a class "A" flame spread rating. Panels are made of high-grade steel and filled with lightweight concrete, giving them core strength providing excellent rigidity, durability, stability with industry leading load performance.

---

**APPLICATIONS**

With three standard load models and complete interchangeability with our Concrete Filled system, these panels coupled with an extensive selection of understructure supports and floor finishes are suitable for a wide range of applications from typical data/computer centers, server / telecommunication rooms, mission critical facilities, assembly areas, and general purpose office and equipment applications.

---

**FLOOR UNDERSTRUCTURE**

Hollow Steel Raised Floor Systems are available with Bolted Stringer and Corner Lock Understructure Systems which can accommodate floor heights as low as 3" and as high as 30".

---

**FLOOR FINISHES**

Hollow Steel Raised Floor Systems are available in several Floor Finishes including High Pressure Laminate, Vinyl and bare steel painted finish that is suitable for carpet or rubber installations.

---

**AIRFLOW PANELS**

Hollow Steel Raised Floor Systems offer Airflow Panels ranging from 25% airflow to 55% airflow (see page 3 and 4 below).
